

FOR IMMEDIATE RELEASE:

Ellison Surface Technologies Celebrates 25 Years of Distinction

CINCINNATI, OH – 2011 marks the 25th year Ellison Surface Technologies (EST) has been providing surface coating expertise for aerospace, power generation and industrial markets.

“We are excited to reach this important milestone in our company history and are thankful for God’s many blessings,” says C. Michael Ellison, Founder and CEO of Ellison Surface Technologies. “For 25 years, we have put the customer at the forefront of everything we do. The growth we anticipate in 2011 and future years is a testament to our customers’ confidence in our service and quality over the past quarter century.”

About Ellison Surface Technologies

Founded in 1986 in Hebron, Kentucky, Ellison Surface Technologies is a leading provider of thermal spray coatings and special processes to many of the world’s largest manufacturers of aircraft engine and land-based power generation components. Headquartered in the northern suburbs of Cincinnati, EST operates four high tech coating facilities across the United States with global expansion plans currently in development.
